TASTING HISTORY

Pre -Prohibition

This is your chance to experience a piece of history. Picture a whiskey that was distilled in 1916, just as the world was gathering into an arena for WWI, Kentucky's Old Hospitality Whiskey was laid into a barrel, where it stayed until 1933. In that time, WWI and Prohibition had both come and gone. 1933 was the same year Hitler began to rise to power again and the Noble Experiment had finally ended; this was the year this particular bottle of Kentucky's Old Hospitality was bottled. I'm sure some heavy discussions occurred over that whiskey, and maybe some hard decisions were made too.

PAPPY GATE

The Heist

Pappy Van Winkle is the unicorn of bourbons. “People say it’s real, but we’ve only really seen it in pictures.

For all we know, it could have been a pasted-on label to a bottle of iced tea or it could be totally real and what Bigfoot drinks with his college buddies every time they get together in the old cave”.

The point is, a bottle of Pappy Van Winkle Family Reserve is extremely rare and the vast majority of people will go their entire lives without ever sampling one”. This is your unique opportunity...

BUFFALO TRACE

A National Historic Landmark

Buffalo Trace's legacy (originally Old Fire Copper Distillery) basically encapsulates the history of American bourbon itself. The brand has gone through several names, a catastrophic lightning strike, a tornado, a devastating flood, that little Prohibition hiccup, and even an unlikely (and almost game-ending) rivalry with vodka and gin in the 1970s and '80s. And yet somehow, the buffalo still kicking. Elmer T Lee, Buffalo Trace's first ever master distiller, has resuscitated bourbon. Long story short, Lee came up in the distillery as bourbon was at a low point. Lee created a bourbon that radically emphasized the process and nuance behind quality bourbon, creating the first-ever single barrel bourbon, Blanton's Single Barrel, and introducing thirsty Americans to the concept of premium bourbon in general.
